

Moamen Moustafa Basyoni

Senior .NET Developer | Healthcare Systems

6th of October, Giza, Egypt · +20 102 786 8067 · mmoamen270@gmail.com

GitHub: github.com/moamen270

Professional Summary

Senior .NET Developer with around three years building and modernizing healthcare (HMIS) systems. Strong in C#, ASP.NET MVC and ASP.NET Core, RESTful APIs, and SQL Server, with jQuery/Ajax web front-ends, IIS hosting, and TFS/Git delivery on Azure DevOps. Computer Engineering graduate with a healthcare-systems focus.

Professional Experience

Senior .NET Developer — Andalusia Health Business Solution (AHBS)

Dec 2023 – Present

Alexandria, Egypt

- Built and maintained **healthcare / Hospital Management (HMIS)** systems for the Andalusia hospital group across **Egypt and Saudi Arabia** — Blood Bank, Supply Chain, Bed Management, and Hospital Structure modules — in **C#** and **ASP.NET Core**.
- Modernized legacy **ASP.NET** applications from .NET Framework 4.5 / ASP.NET Core 2.2 to modern .NET, applying **Clean Architecture** across 5 core and 7+ additional modules.
- Built web applications with **ASP.NET Core MVC** and **Minimal APIs**, with interactive front-end behavior in **JavaScript, jQuery, and Ajax**, **XML** data exchange, and hosting on **IIS**.
- Designed and built **RESTful APIs** and the supporting **SQL Server** data layer with Entity Framework Core — schema design, migrations, and query tuning.
- Implemented international **Blood Bank transfusion workflows** aligned with AABB requirements, reaching a 98% compliance score.
- Worked day-to-day with **TFS / TFVC** and Git across multi-repository Git Flow, with automated **Azure DevOps CI/CD** and Docker across Dev, Staging, and Pre-Live environments.
- Mentored engineers**: designed and delivered an 8-session onboarding program on architecture and modern development practices for 25 engineers across 6 teams.

Backend Engineer — Trastain

Feb 2025 – Aug 2025

Cairo, Egypt (Remote) · Part-time · Real-estate technology (PropTech) marketplace

- Built a PropTech marketplace backend from scratch — shared-property booking, preference matching, and policy enforcement — with RESTful APIs and transaction security for booking execution.

Software Engineer — MYM (Make Your Miracle)

Jun 2023 – Oct 2023

Giza, Egypt · SaaS / e-commerce / booking

- Developed information systems by studying operations and data usage, designing solutions, and following the software development lifecycle for e-commerce and booking platforms.
- Integrated payment gateways (**Stripe, Paymob**) with webhook handling and HMAC signature verification for e-commerce and booking flows.
- Delivered applications end-to-end — requirements analysis, implementation, deployment to Azure Web Apps, and support.

Technical Skills

Languages: C#, SQL, JavaScript, TypeScript, Python

.NET & Web: ASP.NET, ASP.NET Core, ASP.NET Core MVC, Minimal APIs, .NET (Framework 4.5 through .NET 10), Entity Framework Core, RESTful API design, gRPC, OpenAPI / Swagger

Front-End & Markup: JavaScript, TypeScript, jQuery, Ajax, HTML, CSS, XML; IIS hosting

Databases: SQL Server, PostgreSQL — schema design, migrations, query tuning, Entity Framework Core

Identity & Security: OpenID Connect, OAuth2, OpenIddict, JSON Web Tokens (JWT), scope- and claim-based authorization

Architecture & Practices: Clean Architecture, Microservices, SOA, Agile Scrum, code review, onboarding and mentoring, legacy modernization

DevOps & Delivery: TFS / TFVC, Git, Git Flow, Azure DevOps, GitHub Actions, multi-repository CI/CD, Docker, Azure Web Apps, Azure Static Web Apps; payment gateways (Stripe, Paymob), webhooks, HMAC verification

Healthcare Domain: HMIS / Hospital Management Systems, Blood Bank, AABB transfusion workflows

Education

B.Sc. Computer Engineering — Behera Higher Institute (BHI), Alexandria, Egypt

2023

Grade: B+ · GPA 3.2 / 4.0

Languages

Arabic (Native) · English (B2, Upper Intermediate)
