

Moamen Moustafa Basyoni

Senior Backend Developer | .NET, APIs & AI-Integrated Systems

Alexandria, Egypt · +20 102 786 8067 · mmoamen270@gmail.com GitHub: github.com/moamen270

PROFESSIONAL SUMMARY

Backend developer with around three years building and maintaining backend systems and web applications on C#, ASP.NET Core (including MVC), and modern .NET, with strong REST API design, third-party API and platform integrations, SOLID principles, and OWASP-aware secure coding. Daily user of AI development tools (Claude Code, GitHub Copilot) and a builder of AI-integrated backends: LLM API integration and multi-model orchestration (OpenAI, OpenRouter), retrieval-augmented generation (RAG and GraphRAG), agent workflows with LangGraph and CrewAI, and internal Model Context Protocol (MCP) servers. Contributes to architecture decisions and mentors engineers.

PROFESSIONAL EXPERIENCE

Senior Backend Developer — Andalusia Health Business Solution (AHBS)

Dec 2023 – Present · Alexandria, Egypt

- Develop and maintain backend systems and web applications on C#, ASP.NET Core and ASP.NET Core MVC for the Andalusia hospital group across Egypt and Saudi Arabia.
- Design and implement REST APIs and services across distributed modules; build integrations with third-party platforms and APIs (Microsoft Graph / SharePoint, payment providers).
- Participate in architecture and technical design decisions; modernized legacy modules onto modern .NET with Clean Architecture across 5 core and 7+ additional modules.
- Apply SOLID and OWASP-aware secure coding; implemented an OpenID Connect / OAuth2 identity server (OpenIddict) with JWT and scope-/claim-based authorization.
- Build AI-integrated backend tooling: LLM API integration and multi-model orchestration (OpenAI, OpenRouter), RAG and GraphRAG systems (Neo4j), LangGraph and CrewAI agent workflows, internal MCP servers, and automated code-review pipelines — with observability (LangSmith, LangFuse), guardrails, and cost optimization.
- Deliver with Docker and CI/CD (Azure DevOps); mentor engineers through an 8-session onboarding program reaching 25 engineers across 6 teams.

Backend Engineer — Trastain

Feb 2025 – Aug 2025 · Cairo, Egypt (Remote) · Part-time · PropTech marketplace

- Built a PropTech marketplace backend from scratch with booking, policy enforcement, and RAG-based preference matching.
- Integrated Stripe and Paymob payment gateways with webhook processing and HMAC signature verification.
- Automated build and deployment with GitHub Actions CI/CD to Azure Web Apps and Azure Static Web Apps.

Software Engineer — MYM (Make Your Miracle)

Jun 2023 – Oct 2023 · Giza, Egypt · SaaS / e-commerce / booking

- Developed backend systems for e-commerce and booking platforms end-to-end; integrated payment gateways with webhook handling; deployed to Azure App Service.

TECHNICAL SKILLS

- **Languages:** C#, SQL, Python, JavaScript, TypeScript
- **.NET & Backend:** ASP.NET Core, ASP.NET Core MVC, Minimal APIs, .NET 8/9/10, Entity Framework Core, REST APIs, gRPC, Webhooks
- **Architecture & Practices:** SOLID, Clean Architecture, Microservices, Service-Oriented Architecture, OWASP-aware secure coding, API design
- **AI Integration:** LLM API integration & multi-model orchestration (OpenAI, OpenRouter), Model Context Protocol (MCP), LangGraph, CrewAI, RAG, GraphRAG, prompt engineering, guardrails, human-in-the-loop; observability with LangSmith and LangFuse
- **AI-Assisted Development:** Claude Code, GitHub Copilot, Codex
- **Databases & Retrieval:** SQL Server, PostgreSQL, Neo4j, Elasticsearch, semantic search / contextual retrieval
- **Identity & Security:** OpenID Connect (OIDC), OAuth2, OpenIddict, JSON Web Tokens (JWT)
- **Messaging & Distributed Systems:** RabbitMQ, Temporal, Consul, event-driven architecture
- **DevOps & Cloud:** Docker, Azure DevOps (CI/CD), GitHub Actions, Git, Azure Web Apps / App Service / Static Web Apps
- **Integrations:** Microsoft Graph APIs, SharePoint, Stripe, Paymob, webhooks, HMAC signature verification

EDUCATION

B.Sc. Computer Engineering — Behera Higher Institute (BHI), Alexandria, Egypt · 2023 Grade: B+ · GPA 3.2 / 4.0

PUBLICATION & LANGUAGES

- *IoT-Enabled E-Prescription Management and Dispensing Machine Monitoring* — IEEE, 2024
- Arabic (Native) · English (B2, Upper Intermediate)
