

Moamen Moustafa Basyoni

.NET Developer | Microservices, REST APIs & Payments

Alexandria, Egypt · +20 102 786 8067 · mmoamen270@gmail.com GitHub: github.com/moamen270

PROFESSIONAL SUMMARY

.NET developer with around three years building microservices and REST APIs on C# and modern .NET (8/9/10), with Entity Framework Core over SQL Server and PostgreSQL. Designs API contracts before implementation, applies Clean Architecture and SOLID, and operates services in production. Direct payments experience — Stripe and Paymob gateway integration with webhook processing and HMAC signature verification. Works across the stack with TypeScript and JavaScript, and delivers through Azure DevOps CI/CD with Docker in an Agile team.

PROFESSIONAL EXPERIENCE

R&D Engineer — .NET Backend Development · Andalusia Health Business Solution (AHBS)

Dec 2023 – Present · Alexandria, Egypt

- Build and maintain **microservices on .NET 8/9/10 and ASP.NET Core** (MVC and Minimal APIs) for the Andalusia hospital group across Egypt and Saudi Arabia.
- Design and develop **REST and gRPC APIs**, authoring contracts before implementation; improved 10+ inter-service interaction patterns.
- Design data access with **Entity Framework Core and LINQ over SQL Server and PostgreSQL**.
- Apply Clean Architecture, SOLID and design patterns while modernizing modules from .NET Framework 4.5 / ASP.NET Core 2.2 to modern .NET — 5 core and 7+ additional modules.
- Built a runtime Business Rule Engine for injected business logic, improving rule-execution performance by **60%** (BenchmarkDotNet).
- Implemented an **OpenID Connect / OAuth2 identity server** (OpenIddict) with JWT access and refresh tokens and scope- and claim-based authorization.
- Built distributed infrastructure: Temporal Saga orchestration, RabbitMQ event-driven messaging, Consul service discovery, and an Nginx API gateway with health-aware load balancing — cutting deployment downtime from 2 hours to 15 minutes.
- Deliver CI/CD pipelines in Azure DevOps with Docker across Dev, Staging and Pre-Live, working in an Agile/Scrum team.
- Directed a frontend modernization programme (legacy Vue 3 + AngularJS to a modern **Angular** shell architecture on PrimeNG, split behind a private npm feed) — architecture and oversight.
- Mentored engineers through an 8-session onboarding programme reaching 25 engineers across 6 teams.

Technical Partner (equity) — Trastain

Feb 2025 – Aug 2025 · Cairo, Egypt (Remote) · Part-time · PropTech

- Built a short-term rental booking platform from scratch.
- **Integrated Stripe and Paymob payment gateways**, with **webhook processing and HMAC signature verification** for payment events, and transaction security for booking execution.
- Shipped via GitHub Actions CI/CD to Azure Web Apps and Azure Static Web Apps.

Software Engineer — MYM (Make Your Miracle)

Jun 2023 – Oct 2023 · Giza, Egypt · Software house — e-commerce & booking

- Backend systems for e-commerce and booking platforms (hotel, gym/fitness and other reservation systems), delivered end to end.
- Integrated payment gateways (Stripe, Paymob) with webhook handling; deployed to Azure App Service.

TECHNICAL SKILLS

- **Languages:** C#, SQL, TypeScript, JavaScript, Python
- **.NET:** .NET 8/9/10, ASP.NET Core, ASP.NET Core MVC, Minimal APIs, .NET Framework 4.5, Entity Framework Core, LINQ, .NET Aspire
- **APIs & Architecture:** REST, gRPC, OpenAPI, microservices, Clean Architecture, SOLID, design patterns, API gateway, event-driven architecture
- **Databases:** SQL Server, PostgreSQL, Neo4j
- **Distributed Systems:** Temporal, RabbitMQ, MassTransit, Consul
- **Payments:** Stripe, Paymob, webhook processing, HMAC signature verification
- **Security:** OpenID Connect (OIDC), OAuth2, OpenIddict, JWT, scope- and claim-based authorization, OWASP-aware coding
- **Front-end:** TypeScript, JavaScript, HTML, CSS, jQuery, Ajax; Angular (working knowledge — directed a migration to it)
- **DevOps & Cloud:** Azure DevOps CI/CD, GitHub Actions, Docker, Git, Azure (App Service, Blob, SQL), AWS (EC2, S3)
- **Testing:** xUnit, pytest, BenchmarkDotNet

EDUCATION

B.Sc. Computer Engineering — Behera Higher Institute (BHI), Alexandria, Egypt · 2023 Grade: B+ · GPA 3.2 / 4.0

PUBLICATION & LANGUAGES

- *IoT-Enabled E-Prescription Management and Dispensing Machine Monitoring* — IEEE, 2024
- Arabic (Native) · English (B2, Upper Intermediate)
